1 Start

Videos and help: purplecomputer.org/help

Trying Purple changes nothing on the laptop. Take out the Purple Key and restart to get it back. **Like it?** Hold Esc for the Parent Menu, then choose **Install** to keep it for good.

1. Turn off the laptop.
2. Plug in the Purple Key.
3. Turn it on:

Mac

Option + **Power**

Hold **Option** and press **Power**. Keep holding, then pick the orange drive

PC

F12 **Esc**

Press **Power**, then **mash these keys**: tap them fast, again and again. Pick the USB drive from the menu.

Laptop started like normal?
Some laptops use a different key, like **HP** and **Surface** laptops. Find yours on the back.
