Cool things to try

Purple talks. In **Play**, add `!` or start with `say`: `hello!` or `say I love you`. Tab also turns talking on.

Loop like a DJ. In **Music**, **hold** Enter to record a tune, then play along with it.

Colors mix like paint. Hold two letters in **Art** or **Blocks**: F + V makes green. \ opens every color.

Letter sounds. In **Music**, press Tab and keys say their letters. Enter switches between letter names and sounds. Type `cat`, then Space to hear the word.

Rewind anything. Press Esc T for **Time Travel**, then hold ← to watch the room go backward. Enter restores to that moment.

See your own code. Paint or build something, then hold Esc and press Space. Purple shows the code for what you just did.

Made for little hands. Tap Shift, then a letter, for a capital. No need to hold two keys. Typos are okay: `2 plsu 3` or `2++3` still makes 5.
