PURPLE COMPUTER · CARD 1 OF 4

# 1 Start

Videos and help: purplecomputer.org/help

## Trying Purple doesn't change the laptop. Steps:

1. Turn off the laptop.
2. Plug in the **Purple Key**.
3. Turn it on:

### Mac

**Option** + **Power**

Hold **Option** and press **Power**. Keep holding, then pick the orange drive 

### PC

**F12** **Esc**

Press **Power**, then **mash these keys**. When menu appears, pick the USB drive.

**Mash** = tap fast, nonstop

### Purple didn't appear?

Some laptops use a different key, like **HP** and **Surface** laptops. Find yours on the back.

**Flip →**

To **install Purple for good**, see the back.

CARD 1 OF 4 · BACK

# 1 Find your laptop's key

Turn it off, press **Power**, then mash your brand's key.

| | |
|---|---|
| Dell, Lenovo, Acer | F12 |
| Samsung, LG | F10 |
| Sony | F11 |
| ASUS | Esc |
| HP | Esc, then F9 |
| Surface | Hold **Volume Down**, press **Power**. Let go when the logo appears. |
| Mac | Hold Option, press **Power**. Let go when the drives appear. |
| Mac, 2018 to 2020 | Needs a one-time security setting first: purplecomputer.org/mac |

## Or try another way, from inside Windows

1. Click **Start**, then the **Power** icon
2. Hold Shift and click **Restart**
3. Choose **Use a device**, then the USB drive

## Like it? Install it

Hold Esc for the Parent Menu, then choose **Install**. Purple then starts without the Purple Key.

Installing erases everything else on the laptop.
