2 Rooms

Videos and help: purplecomputer.org/help

Tap Esc or ~ to pick a room, then press its number.

1 Art

Every letter paints its sticker color. Space puts the brush down so arrows paint. Tab switches to letters.

2 Music

Every key plays a note and lights up. Enter changes the instrument. Tab switches to saying letters.

3 Play

Type words, math and colors, then Enter. `red + blue` `cat * 5` `dog + cat` `2 + 3` `say I love cat`

4 Blocks

Every letter places a 3D block. Enter builds up. Tab turns the room around. Hold Tab to look from above.

Also in the Esc menu

- T Time Travel
- S Save
- O Open
- Space Write code

Cool things to try

Purple talks. In Play, add `!` or start with `say`: `hello!` or `say I love you`. Tab also turns talking on.

Loop like a DJ. In Music, **hold** Enter to record a tune, then play along with it.

Colors mix like paint. Hold two letters in Art or Blocks: F + V makes green. \ opens every color.

Spell a word. In Music, press Tab, then type `cat`. The cat shows up, and Space says it.

Rewind anything. Press Esc T for **Time Travel**, then hold ← to watch the room go backward. Enter keeps that moment, even after a big erase.

See your own code. Paint or build something, then hold Esc and press Space. Purple shows the code for what you just did. More on card 3.

Made for little hands. Tap Shift, then a letter, for a capital. No need to hold two keys. Typos are OK: `2 plsu 3` or `2++3` still makes 5.
