

Purple Computer Running Purple

Videos & help at purplecomputer.org/help or →

Don't worry! These instructions do **not** change your old laptop permanently. Restart & it'll be back to normal.

Use **Parent Menu** (see **Quick Start Guide**) to install Purple permanently once it's running. It's easy!

1 Turn off the laptop

2 Plug in the Purple Key USB drive

3 **Mac** → Hold **Option** + press **Power** ⏻

or

Keep *Option* held. Pick the USB or orange  icon.

3 **PC** → Don't turn it on yet! Get ready!

Kid's job: press **Power** ⏻ & let go,
then ***mash these keys like crazy!***

F12

Esc

Keep going until a menu appears

→ Pick USB drive from menu

Surface? Flip over for instructions

Not working? Flip over for help

Which keys to mash?

F12 and **Esc** are the most common, but here you can look up your laptop brand

Surface Hold Volume Down + press Power
No key mashing or menus! Keep Volume Down pressed.

Dell	F12
Lenovo	F12
Acer	F12
HP	Esc → menu appears → F9
ASUS	Esc
Samsung	F10
LG	F10
Sony	F11

Alternative Method from Inside Windows

- 1 Click on **Start Menu** → Click on ⏻ **Power** icon
- 2 Hold **Shift** and click **Restart**
- 3 Menu appears
- 4 **Troubleshoot** → **Advanced Options**
- 5 **Use a device** → Select the USB drive
