2 Rooms

Videos and help: purplecomputer.org/help

Tap Esc or ~ to pick a room, then press its number.

1 Art

Every letter paints its color. Space puts the brush down so arrows paint. Tab switches between colors and letters.

2 Music

Every key plays a note. Enter changes the instrument. Tab switches between music and saying letters.

3 Play

Type words, math and colors, then Enter. Examples:
`red + blue` `cat * 5` `2 + 3` `say I love cat`

4 Blocks

Every letter places a 3D block. Enter builds up. Tab turns the room around. Hold Tab to look from above.

Also in the Esc menu

T Time Travel
S Save
O Open
Space Write code

2 Cool things to try

Purple talks. In **Play**, add `!` or start with **say**: `hello!` or `say I love you`. Tab also turns talking on.

Loop like a DJ. In **Music**, **hold** Enter to record a tune, then play along with it.

Colors mix like paint. Hold two letters in **Art** or **Blocks**: F + V makes green. \ opens the color menu.

Letter sounds. In **Music**, press Tab and keys say their letters. Enter switches between letter names and sounds. Type `cat`, then Space to hear the word.

Rewind anything. Press Esc T for **Time Travel**, then hold ← to watch the room go backward. Enter restores to that moment.

Write code. In **Art**, **Music** or **Blocks**, tap Esc, then press Space. If you just drew something, you'll see the code for drawing it again.

Made for little hands. Tap Shift, then a letter, for a capital. No need to hold two keys. Typos are okay: `2 plsu 3` or `2++3` still makes 5.
